[XXVIth YEAR.] THE [No. 1306.]

MARYLAND GAZETTE.

THURSDAY, SEPTEMBER 20, 1770.

HAGUE, *June* 29.

AFFAIRS between this Republick and the Elector Palatine ſeem likely to take a very ſerious Turn. It is aſſured, that 15 Battalions are ordered to reinforce the Garriſons of Maeſtricht, Venlo and Grave, and 25 Veſſels lie ready at Dort, laden with all Kinds of Ammunition and warlike Stores, likewiſe deſigned for thoſe Towns, as being neareſt to the Palatine Territories. In the mean Time, among many Reports that prevail here, it is ſaid, that the Court of Vienna has intimated to the States General, that it is hoped they will not make any Attempt againſt the Lordſhip of Reveſtin, belonging to the Elector Palatine.

It is aſſured, that the States General have accepted the Mediation offered by the Elector of Treves, provided that no Accommodation ſhould be brought about in the Courſe of Six Weeks, between their High Mightineſſes and the Elector Palatine.

LONDON.

June 16. It was this Morning reported, that Inſtructions have been ſent to our Ambaſſador at the Porte, to demand the Reaſons of his Britannick Majeſty's Subjects in Turkey being moleſted in their Perſons and Effects, and that Satisfaction may be made them.

June 19. Yeſterday Se'nnight, in the Evening, there was a ſmall Card Party in the Pariſh of St. James's, conſiſting of about Ten Tables; a Lady of Quality who kept the Pool at One of the Tables, making rather too free with her Truſt, was reprimanded in a very ſpirited Manner by a young Lady who ſat at the Table, on which the Pool-keeper flew at her, bored her Ears, and inſiſted on her quitting the Table. Query, Is this Court Breeding?

June 26. The Income of the late Lord Mayor's Eſtate and Plantations in Jamaica, it is ſaid, was 30,000l. per Annum; and of his Eſtates in England 18,000l. per Annum, beſides his Mortgages and Property in the Funds, which made him the richeſt Commoner next to Lord Clive in his Majeſty's Dominions.

June 28. Mr. Bradſhaw has ordered a Proſecution to be commenced againſt the Printer of a Daily Paper, for a ſcandalous Libel therein inſerted on Tueſday laſt, reflecting upon him, as being concerned in the corrupt Sale of an Office in America.

It is reported, that beſides the uſual Compliment of 1000 Guineas paid to the Count du Chatelet Lomont, the French Ambaſſador, on his taking leave of this Court, Orders were given for making a Gold Coronet for the ſaid Count's Lady, which is now almoſt finiſhed by an ingenious Artiſt in Pall-Mall, and the Price is ſaid to be fixed at Three Thouſand Pounds Sterling.

July 3. We hear that the Freeholders of the County of Middleſex intend remonſtrating with the P———, at their next Meeting; that the Remonſtrance is now under Conſideration, and it is expected will be ſigned by more than that to his M———y.

Lord Viſcount Palmerſton, Hans Stanley, Mr. Sloane, and ſome other Gentlemen, lately ſet off in a Pleaſure Boat from Southampton for Morlaix, and other Ports in France; but the French, ſuſpecting their Deſigns were more than mere Pleaſure, refuſed their coming aſhore, or the Veſſel going up their Harbours.

Extract of a Letter from Ancona, June 19.

The Day before Yeſterday Letters arrived here from the Morea, of good Authority, mentioning, that the 30th ult. Prince Orlow had diſpatched 2000 regular Troops, and 16,000 Mainotes, from Navarino to Corinth, to keep their Poſt there, in order to prevent the Turks entering the Morea. Thoſe Troops paſſed Muſeniga the 4th Inſtant, where they met Soldia Baſſa, with an Army of 30,000 Albanians; they engaged one another at 11 in the Morning, and fought very violently 'til 3 in the Afternoon; the Turks had 8000 Men killed, and 1600 taken Priſoners, and loſt 24 Colours, 20 Kettle-Drums, 5 Pieces of Cannon, and a great deal of Baggage and Proviſions. The reſt of the Army, with Soldia Baſſa, took their Flight to Lepanto; the Ruſſians and Greeks had about 400 Men killed and 1500 wounded, among whom are 6 Officers. As ſoon as this Victory was gained, a ſtrong Detachment marched to the Fortreſs of Polle Kaſtro, at the Streights of the Morea, to take the ſame.

July 5. A Correſpondent from Liverpool ſays, that Mr. Michael Woods, of that Place, F. R. S. has abſolutely diſcovered the Longitude.

Bank Stock has fallen 5 per Cent. and the other Funds in Proportion, within this Fortnight, which has given Birth to a Variety of Conjectures.

The ſudden Arrival of Mr. Lyttleton from Portugal, the Delay of Mr. Pitt for Spain, notwithſtanding all his Equipage has been ready for ſome Time, more likely has affected the Funds, than the Report of the Ruſſia Loan; for, in an Affair of that Kind, the Currency is Dutch Ducats, which depends on their own internal Riches.

The King of Pruſſia ſeems determined to compel the Dutch to ſettle Accounts with him, for the quartering their Troops in his Dominions, in the Year 1672, when the Dutch were at War with England and France.

Yeſterday Advice was received, that the Douglaſs, Brackenridge, from Maryland, is arrived ſafe at Dover; ſhe had been miſſing ſeveral Months, and a large Premium was given upon her.

July 7. It is ſaid, that an Army of 40,000 Men is now ſtationed on the Frontiers of Portugal. What this Fineſſe Means, Time will probably ſoon ſhew.

Advice is received, that the French King, ſince the Beginning of laſt Month, has raiſed Twenty Millions of Livres, at Eight per Cent.

TO THE PRINTER.

SIR,

I Find from moſt of the publick Prints, that the Affair relative to Falkland's Iſlands ſeems to be held as a Matter of Doubt; you muſt therefore give me Leave to inform you of the Circumſtances.

The Situation of theſe Iſlands was ſuppoſed of the greateſt Conſequence to the Spaniſh Trade to the different Parts of South America, that border on the South Seas; and as they contain ſeveral very ſpacious Harbours, it was thought that the being in Poſſeſſion of theſe Iſlands would be as the Key to the South Seas, from which we ſhould be able to make continual Excurſions to the Continent, and have it in our Power to intercept their Ships and diſtreſs their Trade. Mr. Byron had Orders to take Poſſeſſion, and to examine the Harbours, which he found to be large, ſafe, and commodious. About this Time the French had taken Poſſeſſion of the other Side of the Iſland, which was not known 'til the Year following. This having given Umbrage to the Court of Spain, the French Miniſter lately ceded their Rights of Poſſeſſion to the Spaniards, who ſent out a ſufficient Force to take Poſſeſſion. Juſt before Captain Hunt in the Tamer left Port Egmont, Two Spaniſh Frigates of Thirty Guns each, having a Regiment embarked on board them, arrived there, and pretended to be ſurpriſed at finding the Engliſh, who they inſiſted ſhould evacuate it. This Captain Hunt refuſed; upon which the Spaniſh commanding Officer landed, and took Poſſeſſion in the Name of his Catholick Majeſty, and allowed the Engliſh Officer Six Months to evacuate the Iſland. Captain Hunt left the Favourite Sloop of War and a Store-Ship at Port Egmont, who muſt contrive to avoid any Diſputes with the Spaniards, as they are ſo greatly ſuperior. Whether this is eaſy to be done, we muſt leave to Time to diſcover.

The Miniſtry wiſh to keep this ſecret from the People: However, I hope, through the Channel of your Paper, this Tranſaction may not be hid; and as you may depend on this Account being authentick, you will ſpeedily inſert it. LUCIUS.

It was then reſolved, nem. con. that Mr. Bever ſhould be confirmed, and, according to the Reſolution, he mounted the Roſtrum, with his Wooden Head and Hammer, and put up *Jemmy Twitcher*.

TO THE PRINTER.

FEBRUARY 10, 1650, all the Perſons named in the following ſtrange Genealogy were then living at Feverſham in Kent, excepting only the former Wife of old Caſhick.

Old Hawood had Two Daughters by his firſt Wife, of which the eldeſt was married to John Caſhick the Son, and the youngeſt was married to John Caſhick the Father. This Caſhick the Father had a Daughter by his firſt Wife, whom old Hawood married, and by her had a Son; therefore Caſhick the Father's ſecond Wife could ſay as follows:

My Father is my Son, and I my Mother's Mother:
My Siſter is my Daughter, I'm Grandmother to my Brother.

DUBLIN, *June* 28.

A few Days ago Two Gentlemen of Drogheda, falling out on an imaginary Affront, the one a married Man who had a large Family, and the other a Bachelor; the Bachelor challenged the married Man, on which he received for Anſwer, that if he would ſign a Bond to ſupport his Wife and Family if he ſhould be killed, he would immediately fight him, as then he would be upon equal Terms, otherwiſe he muſt excuſe him; which Precaution was the Means of making up the Affair; and not any Two now are greater Friends.

NEWPORT *(Rhode-Iſland), Auguſt* 27.

At a very full Meeting of the Trade and Inhabitants of this Town, held at the Colony Houſe, on Monday the 20th of Auguſt, the following Reſolves were paſſed almoſt unanimouſly, there being *only Four Perſons* who voted againſt them.

WHEREAS, in the preſent critical Situation of America, Harmony and Union in Meaſures, among the ſeveral Colonies, is of ſo great Importance for the Preſervation of our invaluable Rights and Privileges, that without them there is the utmoſt Danger of their being totally loſt:

Reſolved, therefore, That we will cultivate the cloſeſt and ſtricteſt Union with the other Britiſh Colonies upon this Continent, and will heartily join with and ſupport them, in every prudent and conſtitutional Oppoſition to every Attempt to ſubject us to a Taxation of the Parliament of Great Britain.

Reſolved, That we will adhere to and ſupport the Non-importation Agreement, entered into by the Inhabitants of this Town on the 30th of October laſt, ſo long as a Majority of the Colonies, who have entered into ſimilar Agreements, ſhall adhere to and preſerve the ſame.

Reſolved, That the Committee of Correſpondence and Inſpection be continued for the Purpoſes of their Appointment; and they are hereby requeſted and directed, upon any Breach of the ſaid Agreement, and the Refuſal of any Perſon to comply therewith, to call together the Trade and Inhabitants of this Town, that prudent and legal Methods may be taken, to ſtrengthen and preſerve the ſaid Agreement inviolate.

Reſolved, That the Thanks of this Meeting be given to the Committee of Correſpondence and Inſpection, for their Pains and Vigilance in the Service of the common Cauſe of America, and of this Town.

Reſolved, That the Thanks of this Meeting be given to the ſeveral Colonies upon this Continent, who have firmly and perſeveringly exerted themſelves for the Preſervation of American Liberty.

Reſolved, That Meſſ. John Collins, Francis Malbone, and Samuel Fowler, be added to the Committee of Correſpondence and Inſpection, and that the major Part of ſaid Committee have Power to act.

Reſolved, That the Committee of Correſpondence and Inſpection be requeſted immediately to tranſmit Copies of the Reſolves, paſſed this Day, to the reſpective Committees of the ſeveral Colonies with whom they have correſponded, and to ſuch other Colonies as they ſhall think proper: And that they alſo be requeſted to cauſe the foregoing Reſolves to be printed in the Newport Mercury.

PHILADELPHIA, *September* 6.

Extract of a Letter from London, July 5.

"Stocks have fallen much within theſe Ten Days; ſome of the monied Courtiers having ſold out, leads many People to apprehend the Nation will be engaged in a War ere long.

I ſhall be ſorry to hear that Boſton, New-York, and Philadelphia, have concluded to abide by their old Agreement of Non-importation, without admitting a Number of neceſſary Articles. It is not only injuring many worthy People, who ſubſiſt by their Buſineſs in each of thoſe Cities at preſent, but it is turning the Trade to Montreal, Rhode Iſland, Maryland and Virginia.—The Quantities of Goods gone to thoſe Places are very great.——Orders now in London from Maryland [illegible] Philadelphia adheres to their old Reſolutions, then ſend Four Times the Quantity that you are to do otherwiſe."

Extract of a Letter from London, July 7.

"I was told the other Day, that our Miniſtry had under Conſideration, a Plan or Propoſal from Lord Hillſborough, for ſettling American Affairs. I do not ſay this with Certainty. Mean while, the Stagnation of our Trade to the Colonies makes no ſenſible Difference to the Britiſh Manufacturers. They either find other Markets for their Goods, from whence they are tranſmitted to you; or elſe they are ſmuggled in upon you directly from hence: Which laſt is moſt likely to be the Caſe, as, by the Cuſtom-Houſe Books, our Exports to America, in general, are yet very little, if any Thing, leſſened."

ANNAPOLIS, SEPTEMBER 20.

We are aſſured that the Provincial Court will not ſit longer than Saturday, and that moſt of the Weſtern Shore Buſineſs will be poſtponed until the adjourned Court, as the General Aſſembly is to meet here on Monday next.

WHEREAS, there are in the Northerly Parts of *Virginia*, and North and Weſterly Parts of *Maryland* and *Pennſylvania*, large Quantities of very good Land, both for Graſs and Grain, but great Tracts without Water; for Want of which, there is no Encouragement to ſettle on ſaid Lands; as ſeveral Perſons have put themſelves to great Expences, in digging and blowing up Rocks, in Hopes of getting Water, but, being diſappointed, moved to other Parts. As the Ground is in general mixed with Lime-Stone Rocks, it is by mere Accident that Vacancies are found between them, they lying in many Places within Eight, Ten, or Fifteen Feet of the Surface of the Earth. I myſelf have been at great Expences in digging and blowing up Rocks, 'til I was diſcouraged; when I went to one *Andrew Fouts*, an ingenious and honeſt Blackſmith, lately moved out of *Pennſylvania* into *Frederick* County, *Virginia*, near where I have ſettled ſome Families, and propoſed to him to make an Auger to bore into the Ground. He approved of the Scheme on my promiſing him a conſiderable Sum of Money, if he would, at his own Coſt, dig a Well for me, and find ſtanding Water; which he accordingly did in leſs than Five Days Time, having found a Vacancy between the Rocks, by boring into the Ground, where we got, in a ſhort Time, a compleate Well of about 35 Feet deep. Since which, ſeveral of the Neighbours have, by boring with ſuch Augers, found Vacancies between the Rocks, to their great Benefit. Some in leſs than a Day have found good Water, while others, in that Neighbourhood and the Provinces beforementioned, have been at the Expence of Forty or Fifty, ſome near 100 Pounds, to little or no Purpoſe. The Auger is about an Inch and half wide; the whole is made in Joints; the firſt Joint, on which is the Bit, is about Four Feet long, with a Screw, to which another of about Five Feet long is ſcrewed on; the reſt are all about Six Feet. When you begin to bore, ſtand on a Stool 'til it is convenient to ſtand on the Ground; when the firſt Joint is even with the Ground, ſcrew on the ſecond, and ſo on, 'til you either meet with a Rock or a Vacancy to Water; the laſt of which you will know, by the Auger being turned much eaſier: A man with a Boy of about 12 Years old may bore in the Ground Thirty, Forty, in ſome Places Fifty or Sixty Feet, in leſs than Two Hours. 1700 15 JACOB VANDERVEER.
